Curriculum Model

CBSE

The CBSE envisions a robust, vibrant and holistic school education that will engender excellence in every sphere of human Endeavour and commits itself to providing a stress-free learning environment that will develop competent, confident and enterprising citizens who will promote harmony and peace.

Holistic Development

JRSIS believes in all-round development of its students and faculty members and leaves no stone unturned to ensure that the best of facilities are provided for the same. The first and foremost aim of the institution besides imparting formal education is an all-around harmonious development and growth of the personality, both mental and physical of the child, a respect for our noble traditions and a feeling of pride in the child as an Indian for having a better understanding of their surroundings with self confidence, resourcefulness, develop self – reliance and perseverance, Further to imbibe moral values and ethics so dear to our culture.

To develop a spirit of inquisitiveness for seeking knowledge outside the laid down academic curriculum, By encouraging the child for a maximum participation in teaching learning proceed using child oriented approach, with the child a spirit of inquisitiveness, righteousness, moral courage and self pride enabling him / her to meet the challenge of life. A remain steadfast in the face of adversities or setbacks.

- World Class Infrastructure with elegant Ambience.
- Excellent computing facilities with Internet and Wi-Fi

WE INVITE
EVERYONE
TO JOIN US
ON OUR
JOURNEY
TOWARDS
EXCELLENCE

Academic Programme

Pre-primary Program

We have adopted the inquiry and self-research based Pre-primary program of international quality for the first few and most critical learning years of your child.

Your child no longer needs to mug up lessons. He/she will know exactly how to apply the knowledge that's gathered each day.

Young Buddies: Age group 2.5 years to 3.5 years

We provide experienced and trained staff to help toddlers develop key learning skills. Sensory based learning, healthy eating habits, play-based thinking skills and sports activities are based in this program. This program boasts about training children to be independent in terms of speech therapy, potty training, self-learning skills, social skills and self-management. Montessori methods are adopted in teaching.

Butterflies Program: Age group 3.5 years to 4.5 years

At this age children are more willing to learn, share and explore. Our staff is trained to teach children different languages, writing skills and engage them in memory building activities. Through singing, sports, dancing and story studios children are encouraged to build their extra-curricular activities. Montessori methods are adopted in teaching.

Honey Bees Program: Age group 4.5 years to 5.5 years

Just like the hardworking honeybee, the children are taught to work towards building their overall skills. Hands-on learning experience, field trips, writing abilities, reading capabilities and Math and Science concepts will be taught. This program aims at preparing the students for primary school learning challenges. Montessori methods are adopted in teaching.

Primary School Programme: Classes I to IV

Our Methodology

One size doesn't fit all, it is important to accommodate all individual learners, providing them opportunities to grow at their own pace and optimise their inherent potential.

Research shows that the brain actually lights up after a short episode of movement, and neural pathways become more speedy and efficient. Our learning centres allow movement and in-depth understanding of concepts through all modalities of learning. The safe, secure and stimulus – rich environment is responsive to the child's learning needs.

Languages: English, Hindi, Telugu

Subjects: Math, EVS and Social Studies

Middle School Programme: Classes V to VI

Well planned episodes of short movement, with different activities activate the neural pathways and students become more speedy and efficient . Learning is structured to give space for free movement, exchange of ideas and information and discussion. This inculcates in-depth understanding of each subject or lesson they learn.

The safe, secure and rich environment acts as a stimulus for student's learning needs.

Class 5 to 6: English, Telugu, Hindi, French, Math, Science, Social Studies & ICT

Sports & Fitness

Well trained trainers, with international standard of infrastructure, complete with the required safety equipment that encourages students to participate and develop their intellect and creative interests. The activities are well planned during school hours well spread out between their academic classes, which also act as a break from non-stop academic class.

Extracurricular Activities

We offer a range of extra-curricular learning opportunities for our children with a range of different subject areas encouraging students to utilize their talents, and develop their intellectual and creative interests in and around the global world in which they are born and will live.

These activities take place during various school hours. We regularly monitor children to take up the club and make changes as per needs.

- Leadership Camps
- Field Trips
- Skating
- Swimming

- Science Club
- Music
- Yoga
- Sports and Games
- Music and Dance
- Robotics Computer Knowledge
- Digital Teaching
- Performing Arts
- Literary Skills
- Community Services

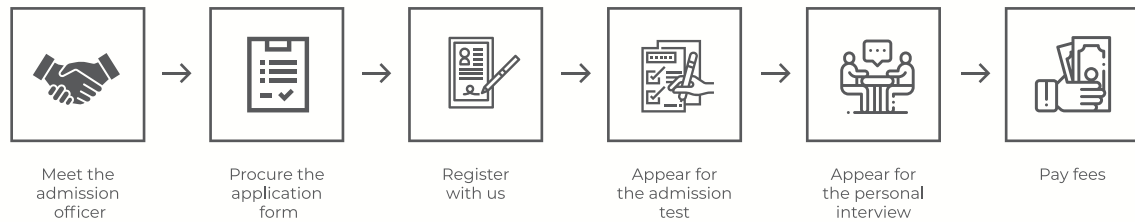

Life at JRS

Admission Procedures

We believe that starting school should be a positive, happy experience. All children have the right to a smooth transition into each stage of their school life. JRSIS's parent-student orientation program assists you in understanding the processes and guidelines

Stages of Admission Process

Please Note

Nursery Admission: You can apply for a place in our Nursery by filling in an application form available from the school office or online. Children are admitted to Nursery the term after their second birthday. Proof of address and your child's birth certificate will be required. Please contact the school if you would like to visit the Nursery and meet the staff.

Applicants seeking admission to Grades 1 to 12 will be required to appear for a Competency Level Test (CLT). The sole purpose of CLT will be to rightly assess the grade for which the child is eligible rather than to grant/refuse admission.

Admission will be offered only on a first-come, first-served basis. If no seats are available at the time the application is received, the applicant will be placed on the waitlist. Parents/Guardians will be notified as soon as a seat is available.

Information on admissions appeals is available from the school office.
